

AL-GM600-1325

MDF LASER CUTTING MACHINE

相框装饰画 激光切割机

设备特点 Machine Feature

1. 自动定位巡边功能：采用先进的CCD摄像定位系统，自动定位、巡边。
Auto positioning function: Use the latest CCD camera system and find the design automatically.
2. 操作简单：切割软件可以自动识别图案，自动生成路径。
Easy operation: Recognize patterns and then form cutting path automatically.
3. 切割速度快；黑灰少；整版切割；异形相框切割效果好；
Faster speed; less black ash; whole board cutting; good effect of special patterns.
4. 低能耗：即开即用，无需开机等待。
Lower consumption: No need to wait time for startup.
5. 耐用：切割时无需添加任何辅助气体。
Durability: No need auxiliary gas during cutting.
6. 稳定性高：采用台湾原装进口丝杆以及导轨。
High stability: Taiwan imported ball screw and guide rail.
7. 应用范围广：高效切割1-30MM MDF、亚克力、木板、奥松板等非金属材料。
Wide application: Can cut 1-30mm MDF, acrylic, plywood, OSB and so on.

技术参数 Technical Parameters

型号 Model	AL-GM600-1325		
激光功率 Laser Power	600W		
切割范围 Working Area	1300mm*2500mm		
切割速度 Cutting Speed	About 60mm/s for 9mm MDF		
切割厚度 Cutting Thickness	1-25mm MDF		
光路形式 Laser Path	龙门式飞行光路 Gantry fly optical path		
传动方式 Transmission Design	精密丝杆传动 Ball Screw Drive/Servo Motor		
重复定位精度 Positioning Accuracy	±0.05mm		
控制系统 Control System	AL-Laser cutting software		
内存容量 Memory Capacity	64GB Supports Offline		
工作电源 Power Supply	220V/50HZ±10%10A		
冷却方式 Cooling Type	水冷 Water Cooling(Pure water,antifreeze in winter)		
图形格式 Graphic Format	CAD;PLT;CDR;AI		
整机功率 Gross Power	5KW	5.5KW	6KW

样品展示 Cutting Samples

设备优势 Advantages

采用先进的CCD 摄像定位系统，自动定位、巡边；
The latest CCD camera system and find the design automatically.

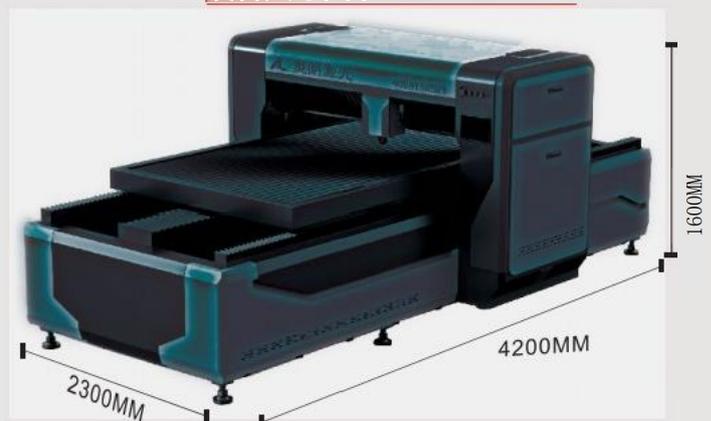

专用激光头光路防尘设计，增加镜片使用寿命；
Specialized laser head optical path dust-proof design increases lens life-span.

装配品牌激光管。寿命更长，功率更稳定，售后保障。
Top brand laser tube.Longer life,more stable, and good guarantee service.

设备尺寸图示 Machine Size

全国免费送货，包安装；质保一年；终生维护。
Free installation and training; One year warranty; Lifetime maintenance.
